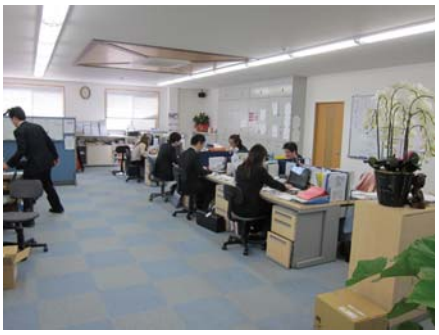
What is Japanese Technology?

About us

MAC CORPORATION was established in 1984. We are an exporter and Japanese distributor specialising in wind instruments.



Our Policy

Our aim is to supply musical instruments of high quality and excellent value to enable more people in the world to enrich their life with the playing of musical instruments.

Our Quality control

We have 6 Japanese technical engineers who supervise quality control at our partner factories and personally inspect every instrument before shipping.

Our office in Tianjin, China controls this and we have 2 resident Chinese engineers who liaise with the factories on a daily basis.
